*Unsure of what direction to go?
Searching for expertise?*
LET OUR DESIGNERS HELP!

Our Design Process

WE ARE WITH YOU FROM START TO FINISH

1 FREE CONSULTATION

Schedule a free consultation to discuss what your needs are.

(This can be done in-person, by email, or over the phone)

Some elements to consider pre-consultation:

- Color scheme? (colors you do or do not want used)
- Dimensions of the final product?
- Style of project? (Contemporary, Retro, Complex, Simplistic)
- Will the final be print or digital?
- What is your budget?

2 FOCUS & STYLE

After your free consultation, we will help determine the main focus of your project and help narrow down a style. If you need some direction- we can email you samples and font styles to help you find exactly what you are looking for.

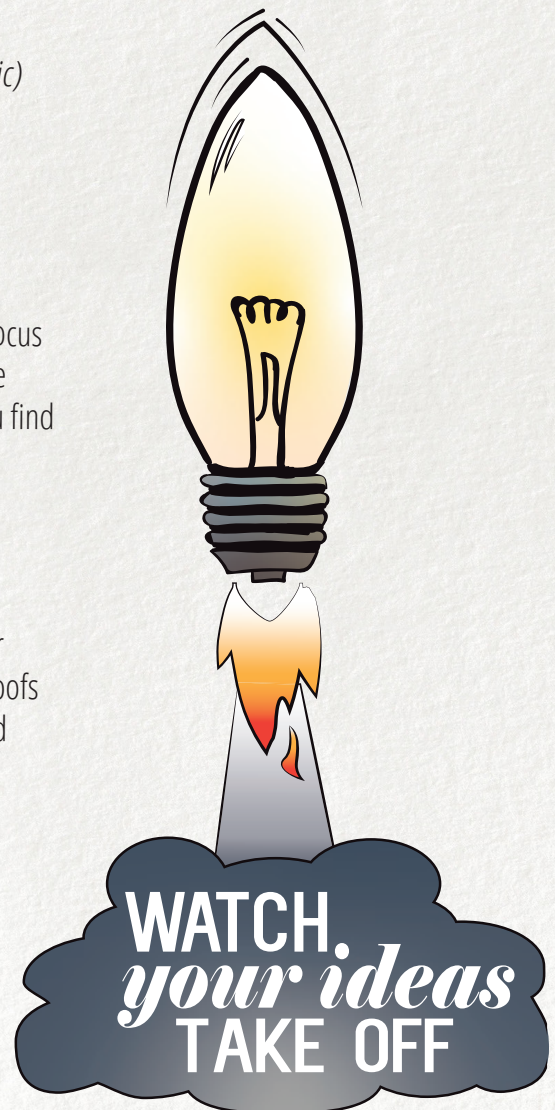

3 DEVELOP & REVISE

Now comes the real design work! This is where we put together everything we learned about your project. We will send you proofs of your project every step of the way, and will not move forward without your approval (this helps save time & money!).

4 FINAL PRODUCT

Upon approval in the revision stage, we will send your project to production and send you the final files for future use and reference, if needed.

Our team is fluent in many programs including the Microsoft Office Suite and the Adobe Creative Cloud suite.

Copies and flyers are simple, but don't let simplicity keep your project on the ground. If you want your project to fly, just stop by or call. Every job is possible.

Simple projects deserve simple pricing. If your project is more complicated than this pricing guide covers. We are always more than happy to help!

*Larger quantities available, call or see us for pricing.

**Pricing based on 70# uncoated text & 80# uncoated cover.

Print Services

Our stock weight of "paper" is already a bit heavier than traditional copy paper. If you'd like an even heavier paper stock, that upgrade is available in the 'Optional Upgrades' section below (and the same goes for card stock). Remember, our default weights are already a little heavier than most use; to be exact, our stock paper weight is 70# Text and for card stock it's 80# Cover.

CLIENT PROVIDED MATERIALS

**Please note: We are only able to print to materials up to 130 lb. and between (4.25" x 6.5") to (13" x 19")

DID YOU
KNOW?

MORE THAN MEETS THE EYE

There are **LOTS** of ways
to **RUN** your job.

Short runs will usually go on our digital copiers, while long runs will usually go on our printing presses. The tipping point between these two methods changes from job to job, depending on lots of factors (stock choice, finish choice, deadlines, and many more).

If you just tell us what you need and when you need it, we'll choose the most appropriate production method. If you make an inefficient choice for your project, we'll speak up and tell you what we think a better route might be. We'll happily guide you.

We want to be your
PRINT PARTNER,
not just your printer.

Business Cards

Business cards are a great way to make a first impression go right. A professional look, or a unique card can demand the kind of attention you deserve from current or potential future clients.

Now, we know those "Practically FREE 500 Business cards" commercials are hard to miss... but we can say with confidence that our product is of the highest quality and supremely better, which is where the price comes into play. Those super cheap business cards are just that- super cheap. Why bother with some flimsy cards that will fade and melt away in your prospective client's wallet? Hand them something you can be proud of, and something to be remembered by!

If you need help with a design for your business card, or want a fresh new look- get in touch with our designers and we will make it happen. Just take a look at this business card makeover we did for the Alex Pressure Washing!

REAL BUSINESS CARDS

Every card includes full color printing on one or both sides, all of our cards are produced on a thick card stock (16 point), and with a gloss or matte finish.

Post & Greeting Cards

We've quoted the most common sizes of postcards and greeting cards below. You're not at all limited to these specific sizes, but they do make up roughly 95% of our orders in this category.

Don't forget to order envelopes (if needed)! Let us make life easier for you by printing your addresses onto your envelopes for you! It's easy and cheaper than the cost of ticking labels on yourself. To review... less money, more professional, less work... call or stop by to get started!

Envelopes

Window, or no window? Lick, or peel? Size? Envelopes can get confusing. Here are the most common sizes and order quantities, but we can (and have) done some incredible non-standard envelope jobs. We'll make sure you get plenty of bang for your buck.

IMPORTANT: Printing your addresses onto labels, then sticking them to envelopes is a thing of the past. We will print your addresses directly on to your envelopes. You give us your mailing list, we'll print your job, stuff it in your coordinating envelopes and deliver to the Post Office without you lifting a finger. No more stuffing. No more labels. Call or stop by to get started.
